

An Energy Efficiency Workshop & Exposition

Palm Springs, California

Investing in New Renewable Development in California

Suzanne Korosec

Manager, New Renewable Resources
Renewable Energy Program
California Energy Commission

Background

- AB 1890 set aside \$540 million to support existing, new, and emerging renewables in California
- SB 90 then established the Renewable Energy Program (REP) and allocated \$162 million (30% of AB 1890 funding) to support new renewables

New Renewable Resources Program

- Funding awarded through competitive auctions
- Pays cents/kWh production incentives to new renewable facilities for first five years of operation
- Renewable defined as: biomass, digester gas, geothermal, landfill gas, PV, solar thermal electric, small hydro, waste tire and wind

June 2 -5, 2002

www.energy2002.ee.doe.gov

3

Auction Structure

- Renewable project developers submit bids for amount of incentive needed to compete in market, up to a max of 1.5 cents/kWh
- Developers submit detailed project description, proof of site control, and estimate of first five years of generation

June 2 -5, 2002

www.energy2002.ee.doe.gov

4

Auction Structure (cont'd)

- Developers must submit 10% bid bond to demonstrate serious project
- Bids ranked from lowest incentive to highest and bids accepted until funds exhausted
- No payments made until projects are on-line and producing energy

June 2 -5, 2002

5

Auction Results

Technology	# of Projects	Capacity (MW)	Average Incentive (cents/kWh)	Total Funding Awarded (millions)
Biomass	3	20	1.24	\$ 8.00
Digester Gas	1	2	1.39	\$ 3.00
Geothermal	4	157	1.29	\$ 80.50
Landfill Gas	27	84	1.19	\$ 29.00
Small Hydro	5	34	1.14	\$ 5.50
Wind	40	986	0.84	\$ 109.00
Waste Tire	1	30	0.65	\$ 7.00
Total	81	1313	0.93	\$ 242.00

June 2 -5, 2002

www.energy2002.ee.doe.gov

6

On-Line Projects

- 2 biomass facilities, 11.3 MW
- 2 geothermal facilities, 59 MW
- 1 digester gas facility, 2 MW
- 11 landfill gas facilities, 31 MW
- 2 small hydro facilities, 11 MW
- 18 wind facilities, 88 MW

June 2 -5, 2002

www.energy2002.ee.doe.gov

7

Post-Auction Issues

- Permitting issues
- Equipment availability
- Lack of power sales contracts
- Difficulty in obtaining financing
- Overall market uncertainty

June 2 -5, 2002

www.energy2002.ee.doe.gov

8

Future Auctions

- Renewable Energy Program has been extended by legislation for 5 years at \$135 m/year
- New resources allocated 50% of that
- Awaiting legislative authority to implement
- Future auctions problematic until power purchase issues resolved

June 2 -5, 2002
